ENTIRE COLLEGE MUCH IMPROVED FOR YEARS WORK

Registration to Open at
Local Institution on
September 4.

FACULTY AT ITS BEST

Instructors Return From
Summer of Training
in Big Schools.

In an official statement issued from his office Wednesday, Dr. A. Linscheid, president of the local teachers college, outlining prospects of the coming year's work and told of how the entire college system had been reorganized and improved in preparation for the advance expected during the coming terms. His statement follows:

"The fall term of the teachers college begins Tuesday September 5. Enrollment and classification of students should be completed Monday, September 4, so that class work may begin Tuesday. It is difficult to tell just what the attendance will be this fall, but all indications point to a good enrollment. However, the industrial and economic depression may enter into this matter as everything else. There never has been a time when so many students have appeared for places to work where they might earn their board and room while attending college.

East Central has been noted for infrequent changes in the personnel of its faculty. The last year has been no exception to the rule. The only important change is in the foreign language department from which Miss McClure resigned to accept a similar position at Tulsa University. This place will be filled today or tomorrow from a large list of applicants. It is certain that a competent instructor can be secured; for there are many applications from teachers of ripe experience and good training for the position. There will be no decrease in the efficiency of this department because of the resignation of Miss McClure.

Much Athletic Material
"There is an absolute certainty that the institution will have more athletic material to pick from this fall than ever before in its history. Experienced players are coming from Pauls Valley, Coalgate, Purcell, Holdenville, Prague, Caney and from Ada high school. Several of the best players who were members of last year's team at the college will also be back. In experience, training, size, speed, weight, and in number these men will be above any group of men that the college has had in the past. To be sure, one cannot tell definitely about a football team until after it has been in action for some time; but the fact remains that Coach M. Z. Thompson will have an abundance of material to select his Varsity team from.

"For the first time in several years the teachers college will have a good band. The efficient orchestra which the institution has maintained for several years will be increased in its number of players and in efficiency. There will be more music on the campus of East Central than ever before. Mr. Fentem who has been in charge of the musical organizations at the college has had notable success in developing musical talent among his students in his long career as a teacher, especially during his five years as principal of Ada high school. His coming to the college will stimulate an interest in music.

Faculty Advances
"In order to keep abreast of the times, several members of the faculty have been away during all or part of the summer term for special training in the respective departments. Misses Lyday, Knight, and Montgomery have been at the University of Chicago since early in June; Miss Jones has been at Teachers College, Columbia University, New York; Mr. Molloy has finished his Master's degree work in the University of Oklahoma; and Mr. Norris has Bachelor of Science degree in the Pittsburgh Manual Training College at Pittsburgh, Kansas, the leading manual training institution in the west. These teachers will bring new methods, new ideas in teaching and new ideals to the local teachers college. You may say that it is the policy of the present administration to extend the largest opportunity to faculty members for getting additional advanced training, and in keeping with this policy Mr. Wilson will go to (Continued on Page Two)

BAKER USES WHISKEY TO HELP HIS PIE SALE

ST. LOUIS, Aug. 30.—Charles F. Zuehlke, proprietor of a local bakery, uses a pint of whiskey daily in pies he sells for five and ten cents each, according to Federal prohibition agents yesterday at a hearing on a petition to revoke his license to handle liquor. Zuehlke said the whiskey keeps the pies from "getting old". The case was taken under advisement.

STATE TITLE NOW IN REACH OF ADA

Anadarko Amateurs Loom
as Most Dangerous Rivals
Before Local Nine.

Contract with the Anadarko ball club for a series of three games at Ada next week was closed this morning by Manager Green.

Anadarko ball club is the only one in the state that stands in the way of Ada's march to victory and the ultimate state amateur championship.

Schedule of these three games gives the local club a total of six to be played during the next two weeks. On Sunday and Monday the club will play Wilson and Company of Oklahoma City here and on Wednesday, Thursday and Friday, September 6, 7 and 8, the Anadarko club will be here. On Sunday week the Okemah club will play at Ada. Manager Green said all he needed to do with the Wilson and Company team to eliminate it from state amateur championship race was to break even. He will try to take both of the games, however. Okemah has a strong team and if Ada defeats that club and takes two with the Anadarko club, there will be no team in the state that has a better right to the claim than the local nine.

Paul Waner and Lefty Williams will compose the battery for the Wilson and Company games. Williams will go into the box next Sunday and Waner will hurl Monday's game. Waner will also pitch Wednesday against Anadarko and Williams will pitch Thursday. Lefty Clowers of Healdton probably will be secured to hurl Friday's game, with Lefty Waner in reserve.

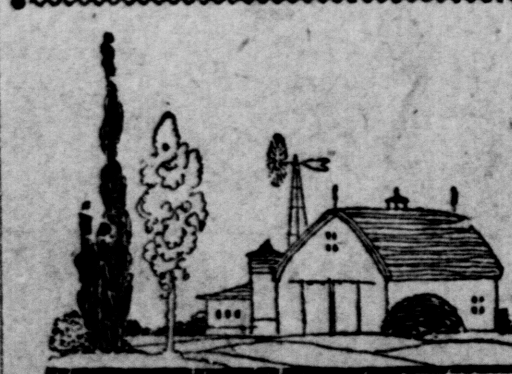

To Add Strong Men.
Green said he had several good men on his list to whom he would look to strengthen his team. The manager of the Healdton club has made Green an offer of any or all of his players for the Anadarko games and many of them are eager to work with the home club. Another good amateur centerfielder from Agnesville is also on his list for prospective action in the forthcoming games.

The Ada manager will endeavor to strengthen his outfield for these games. All the players he is considering are heavy hitters. In case he uses Clowers against Anadarko, he will also use Woods behind the bat, as the two make a perfect battery.

Fans will be given the best opportunity within the next week to see some of the best amateur baseball ever exhibited in this section. With Wilson and Company, Anadarko and Okemah coming, no better amateur teams could be found in the state. All are high bidders for the state championships and must be eliminated by the local team before its claim is well founded.

The Farmer in the Dell
Oh, the farmer in the dell, oh, the farmer in the dell!
He wrote a little want ad 'bout the farm he had to sell;
He had a lot of applicants and bargained very well—
Heigh-ho, the merry-o, the farmer in the dell!

CITY FACILITIES FOR NEW SCHOOL YEAR ANNOUNCED

Hickman Makes Public Last
Plans for Opening all
Buildings Sept. 5.

LITTLE CHANGE MADE

Rosters Resemble Those of
Last Year in Most
Particulars.

Assignment of 66 teachers to the seven city schools was announced Wednesday by City Superintendent J. E. Hickman. For the most part, faculties have been little changed since last year.

Teachers who live out of town are expected to begin arriving Thursday in preparation for opening their year's work. Schools will open September 5 under the following faculties:

High School
W. A. Hill, principal; J. L. German, English; Mrs. Wilbur Lee, English; Miss Abbie Horn, English; B. K. Cudd, history; J. E. Garrett, history; Mrs. Grace Tolbert, history; C. R. Cox, athletic coach; J. B. Tatum, languages; Miss Grace Beauchamp, languages; H. F. Felix, mathematics; Miss Eunice Bills, mathematics; Oscar Parker, science; Geo. L. Dougherty, science; Mrs. Chas. Bobbitt, home economics; Miss Mabel Norwood, commercial; Miss Abbie Kitchens, commercial; D. T. Bradshaw, manual training; Miss Nellie Kent, physical director.

Supervisors
Miss Inez Donaldson, music; Mrs. H. F. Felix, writing and drawing.

Willard School
A. D. Bolton, principal; Miss Josephine Purvine, Mrs. G. W. Hawkinson, Mrs. Robert Kerr, Miss Nell Hodge, Miss Anna Leppert, Mrs. H. F. Mathis, Miss Beatrice Craig.

Irving School
Oscar Kimbrough, principal; Mrs. Oscar Kimbrough, Miss Bonnie Mitchell, Mrs. Jessie Bagley, Miss Grace Rushing, Miss Hazel Strohm, Mrs. Wayne Wadlington, Miss Vera Grant, Mrs. C. R. Cox.

Glenwood School
Mrs. Mary McCoy, principal; C. G. Whitwell, Mrs. J. C. Deaver, Miss Edith Chapman, Miss Ruby Hawkins, Miss Zuma Horton, Mrs. Hazel Hansard, Miss Mae Bentley, Miss Anna Lipstraw.

Washington School
J. H. Hodges, principal; J. J. Hodges, Mrs. Henry Russell, Miss Gladys M. Gibson, Mrs. Anna C. Byrd, Miss Irma McCulloch, Miss Leta Barber, Miss Gervis Bills, Mrs. Grace Van Eaton.

Hays School
E. E. Emerson, principal; Miss Vernon Bates, Mrs. Wick Adair, Miss Willie Thompson, Miss Lois Heard, Mrs. F. E. Gray, Mrs. T. W. Edwards, Mrs. Lucile Griffith, Miss Katherine Grant.

Napier School
W. E. Ross, principal, Bessie Perham, assistant.

Ward Lines Announced
For the benefit of any who may not be familiar with the location of the streets that divide the city into school wards, the lines, as established by the Board of Education are announced:

Willard School
North—District boundary east of the Katy railroad.
West—Katy railroad to Frisco railroad, Frisco railroad to eighth St., eighth St. west to Townsend, Townsend south from eighth St. to twelfth St.

South—Twelfth street east from Townsend avenue.
East—District boundary north of twelfth street.

Irving School
North—District boundary west of Katy railroad.
West—District boundary north of eighth street.

South—Eighth street west from Frisco railroad to district boundary.
East—Katy railroad south to Frisco railroad.

Glenwood School
North—Eighth street east to Townsend avenue.

West—District boundary north of fourteenth street.
South—Frisco railroad to twelfth street, twelfth street east to Townsend avenue.

East—Townsend avenue from eighth street south to twelfth street.

Washington School
North—Frisco railroad to twelfth street east on Townsend avenue.
West—District boundary south on fourteenth street.
(Continued on Page Five)

Husband Commits Suicide as Wife Follows 'Healer'

(By the Associated Press)
CHICAGO, Aug. 30.—The body of W. W. Talcott, who disappeared last Thursday after he had sought unsuccessfully to persuade his wife to desert the teachings of A. J. Moore, self styled "home healer", was taken from Lake Michigan near the downtown district today. In his clothing, according to police, was found identification papers and three bricks with which his clothing had been weighted.

An unsigned note on a piece of paper found in his clothing read as follows:

"If you do not withdraw your suit against Moore, evidence will be brought against you from six years ago." The police are without information on which to base an explanation of the note.

BOMB OUTRAGES INCREASE DAILY

Work of Violence Marks
Progress of Railway
Strike Today.

(By the Associated Press)
CHICAGO, Aug. 30.—Continued bomb outrages and other forms of violence; inquiry into wrecks and alleged sabotage plots; settlement of unauthorized walkouts by trainmen on the Chicago and Alton and the Elgin, Joliet and Eastern and Missouri Pacific, and an appeal to congress by the railroad maintenance of way employees for an amendment to the transportation act assuring a "living wage" for rail workers featured the sixty-first day's chapter of the history of the nation wide strike today.

A Michigan Central foreman at Sebygan, Mich., discovered a dynamite cap and bomb on the right of way near the city. The discovery was made just before an express train was due.

A bomb was thrown from a passing automobile at the door of the Missouri Pacific roundhouse at Barrington Crossing, a suburb of Little Rock, Ark. Guards opened fire on the fleeing machine. The explosion caused no injuries.

A deputy United States marshal and five other men were fired upon at Ft. Smith, Ark.

**MINIMUM PAY RATE
NOT INCREASED YET**

CHICAGO, Aug. 30.—Ben W. Hooper, chairman of the railroad labor board, announced this morning at the hearing of the application of the maintenance of way men for an increase in minimum rates of pay that no decision in the case would be rendered until all of the members of the labor group of board members have returned to Chicago. Albert Phillips is with his wife who is ill in California and another member is away on a vacation. They are expected to return about the middle of September.

Business College Ready for Opening Heavy Year's Work

Plans are nearing completion at Ada Business College for an active fall term, which will open September 4 and 5. Prof. V. A. Newcomb, manager, stated today that his faculty and equipment were better than ever before and that he was preparing to conduct the most successful term in the college's history.

During the past year, enrollment at the college passed the 200 mark. Each student attended classes for periods ranging from five to ten months on an average, he said. In speaking of the attendance Mr. Newcomb also pointed out the material benefit to the town of the college. He said that each student would spend approximately \$150 for board and room while here which would mean about \$30,000 from this source during a term. Tuition, books, supplies, incidentals, clothing and other matters in addition to the board bill will increase the financial income to the city from students to more than \$60,000 a year, according to his figures.

He said that he was expecting a larger enrollment than ever this year. He has increased his equipment until it now consists of typewriters, adding machines, mimeographs, comptometer, banking systems and other office fixtures. Gregg shorthand is also one of the chief courses.

HOPE OF RESCUE FOR 47 TRAPPED MINERS WANING

Heroic Relief Men Batter
Away at Tough Walls
Holding Victims.

RED CROSS FEEDS MEN

Volunteer Squads Refuse to
Stop Their Effort to
Save Comrades.

(By the Associated Press)
JACKSON, CALI., Aug. 30.—Hope of rescue for the prisoners in the Argonaut mine waned today. Picked miners of the mother load country, working with desperate earnestness that leaves them exhausted at the end of their shifts, battered away at the thin but tough wall of slate that separates Kennedy mine from the Argonaut at the 3600 foot level. Beyond that wall, in the lower levels of the Argonaut, are 47 men, who have waited helplessly since fire above cut them off from escape.

Ten men from the United States Bureau of Mines rescue crew have been going down in the burning mine in relays. This morning they reported that they had again reached the 2700 foot level from which they were driven last night.

All of the miners along the mother load far up in the Bret Harle country, have responded with volunteers to aid in the work of attempted rescue.

The Red Cross is serving hot coffee and sandwiches to the fighting men and comforting the grief stricken families of those entombed.

Because it was the custom of the mine to permit parties of twenty miners to go on hunting and fishing trips on Sunday, the regular underground crew working on the Sunday night shift was twenty short of the usual number.

WAR SCIENCE CALLED UPON TO AID RESCUE

(By the Associated Press)

SAN FRANCISCO, Aug. 30.—The science of war was called upon today to assist the rescue crews to reach the miners entombed in the Argonaut mine. A geophone, used for the purpose of detecting sounds at points distant from the instrument, is being rushed from Berkeley. The geophone will be used in the tunnel through which it is hoped to affect a rescue. It is hoped through the instrument to detect the distance and location of any noises that might be made by the trapped miners.

The instrument was developed during the war to locate the position and distance of enemy guns and other related purposes.

MUSKOGEE'S JAIL FUGITIVES TAKEN UP EARLY TODAY

(By the Associated Press)

MUSKOGEE, Aug. 30.—Three of the men who made a sensational escape from the Muskogee county jail last night were captured in the vicinity of Claremore this morning, according to the sheriff's office. William Bennett, alleged motor car thief, who engineered the delivery, was captured 15 miles north of Claremore. George and Frank Savage, both held in the Muskogee jail at the time of the delivery, were re-arrested at Claremore. According to information received at the sheriff's office, the men were taken without a struggle.

The jail delivery, characterized by officers as the most daring in the history of criminology in the outwest, was affected single handed by William Bennett.

Dashing a handful of pepper into the eyes of the night jailer, Bennett jerked open the drawer where the jail guards keep their revolvers, covered the jailer, John O. Watkins, an attorney, with one of the guns, and then locked the jailer, Watkins and Charles Bowman, a guard, in cells.

PERRY FARMER KILLED BY SOUTH BOUND TRAIN

(By the Associated Press)

PERRY, Aug. 30.—Joseph Howard, 67, a retired farmer, was instantly killed near Perry early today when he was struck by a south bound Santa Fe passenger train No. 11. Howard was dead and was walking down the railroad track to his farm. He is survived by his wife and six children.

PONTOTOC FARMER, 48, NEVER HAD SICKNESS

Health in abundance. That is the story told by H. G. Hall, Pontotoc county farmer who lives ten miles from the city. He is 48 years of age, has ten children and never had any sickness of any nature in his family.

Hall was in the city today and incidentally told of the wonderful health his large family had experienced while living in Pontotoc county. He is the father of five sons and five daughters, the eldest of which is 21 years and the youngest six months.

MARION IS SCENE OF RIOT PROBING

Eye Witness to Massacre
Says He Feigned Death
To Escape Killers.

(By the Associated Press)

MARION, ILL., Aug. 30.—Marion's weather beaten and quaint old court house, the center of Williamson county, noted for the "Herrin massacre" near the Lester strip mine June 22 last, today formed the scene upon which were cast from all parts of the country the eyes of persons watching the progress of the special grand jury that entered upon the third day of the investigation of the mine war.

Witness after witness, many of them believed to have a direct knowledge of the identity of the leaders of the mob, has stepped into the little room to furnish evidence but what weight their testimony will have in the bringing about of indictments remained to be seen.

A. T. Finsley, a time keeper at the mine, who marched second after the employees had been placed in line by their captors, yesterday spent considerable time in the grand jury room. It is believed here he repeated what he told on the previous occasions. He was guarded the entire time he spent in Marion.

Finsley had previously told that he saved his own life by feigning death while he lay wounded, his head entangled in barbed wire on the battle ground, while the "clean up squad" swept over the field. Employees of an electric railroad running between here and Herrin also are looked upon as material witnesses in the investigation, as are employees of the hardware store where ammunition was forcibly taken by a mob on the evening before the massacre.

Presbyterians to Start Revival in Unfinished Church

An invitation to citizens of Ada to "join us in an effort for better times" was extended Wednesday by Rev. E. O. Whitwell in announcing preparations for a revival meeting which is to open in the unfinished church building on Sunday, September 3, at 8 p. m.

The pastor and a crew of men were busy today arranging seats and a platform on the main floor of the new church. All pastors and others of the city and county have been invited to co-operate in the revival campaign. Preaching and singing will be by local talent. Dr. Whitwell has spent many years in evangelistic work and is considered highly capable of conducting such a campaign.

The revival center is a real "roof garden" and will be comfortable on warm evenings, the pastor declared. The meeting will continue two weeks.

NATIONAL HEROINE IS DEAD IN CHICAGO HOME

CHICAGO, Aug. 30.—Mrs. Franklin Jones, only daughter of General U. S. Grant, one of the country's few "white house brides" and one of the popular heroines of the country, died at her home here today. Death was due to paralysis, which made her an invalid for several years.

Notice to Baseball Fans.

There will be a meeting of baseball fans at Green's Drug Store tomorrow night, Aug. 31, 8 o'clock to discuss very important business matters concerning the coming championship race. This is not for financial purposes but strictly to get the opinions of the fans who are interested in the outcome of our race for State Amateur Championship.

BUT LIEUTENANT GOVERNOR VIEWS ATTACK LIGHTLY

"It's Political Blackmail"
Official Asserts When
Told of Complaint.

REVIVE OLD GRUDGE

Republicans Open Fight
From Seminole County
on Demo. Nominee.

(By the Associated Press)
OKLAHOMA CITY, Aug. 30.—Lieutenant Governor M. E. Trapp was arrested at his home here early this morning by Deputy Sheriff Frederick, of Seminole county, on a charge of perjury in connection with an alleged transaction with Seminole county three years ago. The lieutenant governor was victorious in his race for re-nomination on the democratic ticket.

Papers which were served on Lieut. Governor Trapp just as he was leaving home for the capitol also charged him with preparing false testimony.

Immediately after his arrest, Mr. Trapp issued a statement in which he said:

"The sheriff of Seminole county informs me that the republican treasurer of Seminole county has filed a complaint charging me with perjury on account of my transactions with Seminole county three years ago.

Off for Wewoka.
"This is the same matter which was made the basis of an attack upon me by the republican house of representatives two years ago. I am going to Wewoka today with my attorney to make further investigation into the cause of the complaint.

"It is now very apparent that the complaint was drawn as a piece of the republican political blackmail, following the conference of the republican leaders assembled here at the republican state convention this week. I was vindicated of these charges in the legislature nearly two years ago.

"It is only because of the fact that I was nominated again by the democrats for lieutenant governor in the August primary that the republicans deem it necessary to make upon me one of the attacks that they seem to be directing at all those active in the democratic ranks and especially those who have been nominated for office. I am not worried one bit about this complaint."

Ladies to Settle Golf Title Sunday on Links Near Ada

Sunday afternoon at 3 o'clock Mrs. A. W. Parker will meet Mrs. J. H. Patten on the Ada Golf links to decide the Elks Lady Golf champion. Whit Fentem will be official referee. Visitors will be welcome at the match.

This is the finish of a tournament which has been in progress for many weeks. Many hard contests have been fought to decide the champions. The two ladies named only recently won their way to the finals.

Men will play on the same day at a later hour but the players have not yet been decided as several semi-final matches are to be played today. Scores must be turned in by tomorrow.

Widney is Assigned to Local Episcopal Church as Minister

Rev. Charles L. Widney is expected to arrive in Ada within the next two or three days to become minister in charge of the Episcopal Church, according to information received this morning from Bishop Thurston by T. B. Blake. Rev. Widney will make Ada his home. He will hold services at the local church each Sunday morning and at Holdenville in the evening.

Rev. Widney, whose home until recently has been in Chickasha, is a graduate of the University of the South, Sewanee, Tenn., and is considered one of the most brilliant young ministers in the state.

cloudy; warmer tonight is northeast portion.

BIBLE THOUGHT FOR TODAY

A SURE DWELLING PLACE:—Trust in the Lord and do good; so shalt thou dwell in the land, and verily thou shalt be fed.—Psalm 37:3.

Every time a drive is made against anarchistic agitators the dragnet hauls in a string of men and women with unpronounceable names. They originated in some corner of Europe where until recently such a thing as liberty was unknown. They fled to this country for protection and now repay the debt of gratitude owe for American privileges by attempting to overthrow American institutions. They object strenuously to being deported when caught red handed although things here are not to their liking. Congress has done well in restricting the number of immigrants admitted to the United States, but the law should be strengthened as to make sure that a prospective immigrant will make a good citizen before he is permitted to embark from his own shores for America. A thrifty law-abiding immigrant may become a strong asset, but the radical may become a grave menace as has been demonstrated many times already.

A former county official on being released from the penitentiary a few days ago on completion of a two-year sentence, found another warrant waiting for him when he walked out of the gates and he now has to face a charge of forgery. He says whiskey was the cause of his downfall and declares that 75 percent of the crimes of Oklahoma are traceable to booze. No doubt true but his belated temperance declaration will not likely cut the sale of moonshine to any noticeable extent.

When one is determined to pick faults in the character of another he generally succeeds for no one is perfect. However, the fault finder seldom has much edge on the other fellow if he turns to point out a few shortcomings in his critic.

The war cost the lives of thousands of America's finest young men, but the destruction of life in battle was less than that caused by accidents in 1920, according to a report of the National Safety Council. It figures that 76,000 were killed in accidents of various kinds, or one every six minutes. Auto accidents were the most numerous, no fewer than 11,000 deaths being due to this cause. Of course many of the accidents could have been avoided by the use of a little caution, but the American people go at everything in a headlong manner and think little of consequences until it is too late.

A MEXICAN APOLOGY

Here is how the Monterey, Mexico, Press apologizes for a hasty statement appearing in its columns:

"This paper last week published a story in which it said that Dr. Rudson, whom it took to task for medical care given a patient, would make a good horse doctor.

"During the week Dr. Rudson called at the office of the Press and demanded that we retract the statement, saying that he was a good doctor. We do, and have much pleasure in saying to our readers that Dr. Rudson is not a good horse doctor.

No community can be prosperous unless its citizens pull together. Every fellow has his task and must carry it out if he is to be a help instead of a hindrance to the progress of his fellows. If the community is prosperous all get a share of it. If it is dead and going down hill, every element of citizenship goes down. Civic pride is the element that determines the final destiny of any town. Where there is no public spirit the community goes down.

The greatest obstacle to the passing of the soldiers bonus bill has been the ways and means of raising the money with which to pay it. After figuring on every possible source and finding none satisfactory the senate has come around to the original proposition embodied in a bill introduced by Tom D. McKeown providing that the interest paid by foreign nations on the debts to the United States shall be applied on the bonus fund. Sometimes it is hard for a man to see a point but the senate has finally seen one.

Evidently Senator Lodge has lost some of his influence in his home state. A man by the name of Fuller has been nominated for lieutenant governor and although in times past he has denounced Lodge as a "blood drinker" and a "senile whelp," Lodge has been forced to give him his endorsement. Verily politics makes strange bed fellows.

Some people have trouble in distinguishing between the high cost of living and the cost of high living, although there is a wide distinction between the two.

Whistling to keep up one's courage is far better than to run from the inevitable and wilt under the first attack of trouble.

BUSHNELL'S CARTOON MOVIES OF NEWS EVENTS IN EIGHT REELS

The Forum of the Press

Road to Ease

(McAlester News Capital)

A black skinned Algonquin Indian

canoe down to the Hudson Bay

post at Bear Island, Ontario. He

brings a story about an Eskimo in

the far north who has tamed polar

bears and trained them to do his

heavy teaming.

Big game hunters will doubt it,

for the polar bear has a body about

as large as a piano box and is one

of the most ferocious and cunning

of all animals.

The incident however sets you

thinking about the tremendous

amount of work that man has passed

off on domesticated animals. He has

made slaves of horses, cattle, chickens,

Eskimo dogs, camels, elephants and

a host of others.

Of all these horses are the most

intelligent. Elephants come second.

In India they are trained to work

all day on such tasks as moving

and piling logs.

Any old farmer can recall when

farmers used dogs, running on a

treadmill, to churn butter. Horses

were similarly used to operate

threshing machines.

Man is parasite.

Until the invention of the steam

engine, his existence depended al-

most entirely on his parasite use

of animal and vegetable life.

The steam engine ushered in a

new era of power. Previously, there

were few instances of man using

power not generated by animals—

such as wind moving sailing ships

and water power turning the prayer

wheels of India.

Gradually we are shifting our

position as a parasite on animal and

vegetable life. The auto is relieving

the horse. So are railroads and fly-

ing machines. There is talk of food

being produced synthetically in la-

boratories instead of by growing and

killing plant life. Where was once

preyed exclusively on trees, a form

of plant life, or our dwellings, we

now turn to brick, concrete and

metals like iron.

In school, you studied about the

three kingdoms of nature—animal

vegetable and mineral.

Man rose to his present state

by being a parasite on the animal

and vegetable kingdoms. Slowly but

surely he is relaxing his grip on

these and fastening himself as a

parasite on the mineral kingdom.

A good illustration is taking oil

out of the ground instead of get-

ting it by killing whales and hogs.

It is a peculiar change taking

place without much attention. But

it is vastly important in the history

of mankind, a definite and separ-

vice in Manila has been lengthened by the prolongation of legislative programs and by general conditions in the islands. He could cure the Gordian knot by resigning, but he is not that sort of an American. He is cheerfully sacrificing his inclinations and has consented to remain several months longer. At his age continued residence in the tropics makes the sacrifice all the more obvious.

The general's court parallels to some extent that of Chief Justice Taft, who deliberately sacrificed his opportunity to realize a lifelong ambition to become a justice of the Supreme court, by going to the Philippines at the request of President Roosevelt.

Mr. Taft was peculiarly fitted for the special mission which he undertook, involving as it did problems quite different from those confronting General Wood. Mr. Taft's patriotic Americanism in serving the Philippines who relied so implicitly upon his wisdom and ability is not to be discounted by the fact that many years later he is found not merely a member, but the chief justice of the greatest judicial body in the world.

America's administrative history has been enriched by the careers of these two distinguished Americans, both of whom were so closely identified with Colonel Roosevelt himself. General Wood was an obscure army doctor when he was "discovered" by Roosevelt and throughout his career vindicated the judgement which brought him into prominence as the first colonel of the famous Rough Riders.

The gross injustice of his displacement on the eve of his departure for France has always rankled in the minds of his friends. But always he has displayed the self-effacing patriotism which is once more illustrated by his last sacrifice.

ENTIRE COLLEGE MUCH IMPROVED

(Continued from Page One)

The University of Oklahoma during the first semester to work out an advanced degree and Miss Kelter will go to Peabody college for teachers to work out her Master's degree. We invite a comparison of the faculty of this teachers' college with that of any teachers college in this or adjacent states.

"Superintendents, principals and teachers throughout the district are active in behalf of the teachers college at Ada. In several counties they have sent out circulars to all prospective students calling attention to the merits of East Central, and advising these prospective students to attend here. This campaign will bear fruit in an increasing degree as time goes by. An institution of learning cannot be built over night; but the work that is being done for East Central is of a type that will bring results of a substantial nature.

Extension is Busy

"Mr. Fenton has visited every county and almost every town and village in the district. There will be more extension and correspondence work this year than ever before. This is excellent in several ways; it gives teachers and others an opportunity to learn while they earn; it makes possible an education for people of moderate means; it keeps people in the small towns and rural communities alive professionally; and best of all from our standpoint, it brings Ada and the teach-

ers college in intimate contact with every part of the district which it serves. It means students for East Central in the future; for students who, do work in extension will come here to do work in residence just as soon as they get in position to go away school. Correspondence schools, night schools, and extension schools have been the poor man's opportunity for an education. East Central is glad to have a hand in helping the deserving students of moderate means.

"Two years ago the teachers college was authorized to confer degrees. It was thought at that time that it would be years before this advanced work would become popular. But contrary to the expectations of the best friends of the institution the work is popular now. High school teachers and in some cases city superintendents have taken a leave of absence and will be here for the regular year. While it is impossible to tell just how many students there will be in the degree class, it is certain that before the close of the summer term at least thirty or forty will complete the work leading to degrees.

Good Past-Good Future

"In the past a good summer term has always meant a good year following that summer term. Our last summer term was so eminently successful that we are optimistic about the regular year beginning September 4. We hope that East Central is beginning a new era in its career as a teacher training institution and as an institution of higher learning. An institution based upon the idea of service, an insti-

tion that seeks to prosper because of the service it renders the people of the state, such an institution deserves to prosper. East Central bases its claim upon the confidence and support of the people of Oklahoma upon its well-earned reputation for honest, consistent work and for good service rendered."

Australian Defense Forces to be Lower as National Economy

(By the Associated Press)

SYDNEY, N. S. W.—The proposed economies in the Australian defense scheme are expected to result in the reduction of the Australian Defense Force from 80,000 to 61,000 enlisted men and a decrease in the number of officers from 300 to 80.

After a training cadets during the time between the ages of 16 and 18 years, youths will pass automatically into the ranks of citizen soldiers. Two quotas will go into camp annually instead of six, as at present, and there will be four days training at home in addition to six days in camp.

The minister of defense is considering a scheme for compensating all members of the permanent forces who will be discharged and it is understood that such officers and men will participate in the benefits which public servants will enjoy under the proposed superannuation bill.

Political Announcements

The News is authorized to announce the following as candidates for the offices named, subject to the action of the Democratic primary.

WEAK; RUN-DOWN

Carolina Lady Got So She Could Just Drag.—"Cardui Built Me Up," She Declares.

Kernersville, N. C.—In an interesting statement regarding Cardui, the Woman's Tonic, Mrs. Wesley Mabe, of near here, recently said: "I have known Cardui for years, but never knew its worth until a year or so ago. I was in a weakened, run-down condition. I became draggy—didn't eat or sleep to do any good; couldn't do anything without a great effort. I tried different remedies and medicines, yet I continued to drag.

"I decided to give Cardui a trial, and found it was just what I really needed. It made me feel much stronger soon after I began to use it. I began to eat more, and the nervous, weak feeling began to leave. Soon I was sleeping good.

"Cardui built me up as no other tonic ever did.

"I used Cardui with one daughter who was puny, felt bad and tired out all the time. It brought her right out, and soon she was as well as a girl could be. We think there is nothing like Cardui."

Do not allow yourself to become weak and run-down from womanly troubles. Take Cardui. You may find it just what you really need. For more than 40 years it has been used by thousands and thousands, and found just as Mrs. Mabe describes.

STALL'S STUDIO Over Globe Clothing Store

By Harry W. Miller

There were 33 big eyed and open mouthed scouts at Turner Falls camp of Ada Boy Scouts when Judge Orel Busby, president of the Pontotoc county Boy Scout council, drove into camp last Saturday evening with his car loaded with watermelons. A great shout of appreciation went up as soon as the boys recovered themselves sufficiently to grasp the idea that a feed was in store for them.

At the Sunday morning service Judge Busby delivered a short address to the scouts on Roosevelt, bringing out the important points of the noted president's life.

Cecil Qualls, Glen Walters and Loran Stafford were accused of sleeping over their trousers each night to keep them "pressed" so they would look dandy to the Norman camp fire girls camped about a half mile up the stream from the Ada boys. Cecil also was found guilty of getting ducked while swimming in Blue Hole by one of the same girls.

It is also stated on good authority among the scouts who attended the camp that most of the boys lived up to the old belief that a boy's appetite is never satisfied. Frank Bacon reports that Kermet Gregory and Simon Kilcrease were champion eaters.

Guy Saddler and Alvin Greer studied forestry to a finish while in camp, collecting sixteen different specimens of tree leaves.

When the cookies came up missing the camp was thrown into an uproar. "Buck passing" was in order. Some said it was Fred Abney who took them and he said it was William Jeter. William was not bashful when he said he was confident that Trooper Shaw could explain the matter. Trooper was equally confident that Homer Wadlington was guilty and Frank Bacon the cook, says they were all wrong. He promised to keep mum, however.

Wayne Wadlington did the blushing act when he was ducked by "that fat little camp fire girl" while swimming, according to several who were with him. The camp fire girls caused much amusement in the scout camp—always at the expense of some of the fellows.

Frank Bacon, the cook, was given the privilege of naming the best camper. He gave the honor to Luin Cales. Excuses such as a "sore heel" and "broken toe" and "lame leg" were the vogue when water was needed, he added in passing his decision. Curtis Allen was chief excuse maker but he managed to pass the second class scout test and part of the first class scout tests.

A big flour fight on the return trip was staged, all hands participating. Simon Kilcrease and Curtis Williams were submerged.

Peaches and apricots sure tasted good in camp, according to the statement made in connection with the vote of thanks given the Hale Halsell Grocery company, which furnished them. M. K. Smith acted for the company and made a friend of every scout who tasted the fruit.

Men's Bible class and supporters of the scout council did much to make the camp a success. Transportation was furnished and many extra events provided for the boys. Without the aid of the Bible class the trip would not have been possible.

Following scouts passed tests while in camp: Luin Cales, Owen and Truman Izzard, Curtis Allen, Harvey Shipman, Morgan Carroll, Haskell Floyd, Charles Smith, Wayne Wadlington, Cecil Qualls and Curtis Williams. Tenderfoot, second class and first class tests were given.

Loran Stafford, Chester Sneed, Cecil Qualls, Guy Saddler and Alvin Greer passed merit badge tests. Robert Chaffin, Roy Meeks and Prof. D. T. Bradshaw accompanied the boys and assisted Harry W. Miller, scout executive, in managing the camp.

The boy scouts will have a log cabin booth at the Pontotoc county fair. It will be fixed up in true scout style with plenty of ice water for all. Scouts will also be on hand to do good turns for those needing assistance. A detail of scouts will be at the fair grounds this week to make the preparations for the fair.

The scout executive has been asked to provide stunts and games for all members of boys' and girls' clubs in the county. Consideration of the matter has resulted in the preparation of a list of events, one of which will be sent to every club member previous to the fair. It is expected the combined stunt and games of the fair under the auspices of the scouts will be one of the features of the fair.

Smith Released Upon \$1,000 Bond in Local Hijacking Charge

Darrell Smith who, with Johnnie Jones, is charged with conjoint robbery, made \$1000 bond Tuesday before Justice of the Peace H. J. Brown and was released from the county jail where he has been held since his alleged participation in a hijacking here August 26. Jones is still in jail.

The two men are alleged to have held up Joe Smith and Clarence Jimeron with a pistol and to have taken \$1 in money from the two men.

LEGION WILL NOT SEEK CONVENTION

But Local Post May Send Special Car to Meet at New Orleans.

Ada will not seek the 1923 state convention of the American Legion but instead it will center efforts now upon sending a special car to the national meeting at New Orleans in October, according to action taken Tuesday night by Norman Howard post.

Four special trains are planned to leave Oklahoma, October 14 for New Orleans. The train through Ada will start at Afton and pass through Tulsa, Sapulpa, Okmulgee, Holdenville, Ada and Madill to Fort Worth. It goes from there to Houston for a stopover from about 8 p. m. to 9:30 p. m. on Sunday, October 15.

Special side trips may be made to Galveston Sunday morning. Houston will give Oklahomans a reception Sunday afternoon.

The local delegation will arrive in New Orleans at 7:30 a. m. on October 16. One way fare for the round trip is the best that has been obtainable. Fares are quoted from Ada will be \$24.51 roundtrip. Pullman fares will be in addition to the above quotation and will run about \$17.50 for a lower standard round trip.

Tourist Is Cheaper. Tourist sleeper rates are approximately half the rate for standard sleepers. If a Pullman car is chartered for the round trip, it will cost Ada legionnaires \$54 a day for a standard and \$12 a day for parking privileges at New Orleans. By this arrangement the service men can use the car for a hotel. A tourist car will cost \$30 a day, with parking charges the same.

A standard car, loaded with 40 persons, amounts to slightly more than \$1.50 a person per day, according to figures compiled by Mayo E. McKeown, adjutant of Norman Howard post.

Local legion men will leave New Orleans on the return trip at 11 p. m. on October 20, arriving home early Sunday morning, October 22. Twenty-five fares, guaranteed, will secure a chartered car.

Legion men interested in going to the convention are requested to confer with Clint Miers at the court clerk's office.

World Comments on New Water Project U. S. is Considering

(By the Associated Press)

CHICAGO, Ill., Aug. 30.—The Great Lakes-St. Lawrence waterway proposed to link the Great Lakes with the ocean and give a vast expanse of territory in the United States and Canada a direct ocean shipping outlet, is receiving comment in many sections of the world.

An article by Carl Junker, editor of the Ost Post of Vienna is one appearing in Europe. One paragraph of the article reads:

"Westward marches the culture of the world. Likewise, just as the sun travels with its light and life, the old Atlantic ocean must go west too, and as Americans get what they wish, the Atlantic will move west when they say the word."

Hay Fever Relief

May be Had Right at Home

WHILE there is no certain "cure" for hay fever, Vicks in many cases will give relief. As a preventive, keep Vicks up the nostrils, especially when exposed to dust.

To clear the head, melt Vicks in a spoon or tea kettle and inhale the vapors.

For relief during a night attack, rub Vicks over the spinal column from the neck to the hips. Then apply over throat and chest and cover with hot flannel cloths.

Leave the bed covering arranged in the form of a funnel so that the vapors arising may be freely inhaled.

LEGION MEN DEDICATE HOSPITAL AT SULPHUR

The Soldiers' Tubercular Sanatorium just completed at Sulphur was dedicated and officially opened Saturday, August 26. The American Legion had charge of the impressive ceremonies, with Hughes B. Davis of Duncan, Department Commander, presiding. Governor J. B. A. Robertson or his representative failed to arrive. Addresses were made by H. B. Fell, chairman of the Soldiers' Relief Commission, which had charge of the construction of the hospital, and Horace H. Hagas, a member of the Commission, Murray Gibbons, chairman of the Soldiers' Committee of the Legislature, and by B. H. Watkins, superintendent of the hospital. Members of the hospital staff were introduced. At the close of the ceremonies the flag was sent to the top of the flagpole while the band played the national anthem and all stood at attention. Practically all of the large crowd attending were shown through the hospital following the exercises, and much praise was heard concerning the modern equipment and buildings.

SULPHUR HOSPITAL TO TAKE SPECIAL PATIENTS

At present the Soldiers' Tubercular Sanatorium at Sulphur can accept only patients who are not entitled to treatment by the Veterans' Bureau. In other words, any ex-service man whose disability is traceable to service should receive treatment from the Government rather than the state. However, the Soldiers' Relief Commission is asking the Veterans' Bureau to take part of the Sanatorium at Sulphur and send Oklahoma patients there. Some Oklahoma patients have been leaving the Bureau hospital at Houston, Texas, of their own accord, hoping to gain admission to the Sulphur hospital. They have been advised against such a move as they cannot be received there until moved there by the Veterans' Bureau. A Bureau inspector will visit the hospital soon.

LEGION ASSISTS IN PROVIDING TREATMENT

The American Legion of Oklahoma and the Soldiers' Relief Commission, with the aid of the state, have provided three hospitals to accommodate ex-service men. One undred beds are available at University Hospital at Oklahoma City, for Oklahoma men whose disabilities are not traceable to service, accepting only general cases the Soldiers' Memorial hospital at Muskogee, to be completed about September 15, 1922, will have 500 beds and will be leased by the Veterans' Bureau.

Barbecues Are Feature

Platt National Park, No. 148 of Sulphur, cooperating with the Commercial club, gave a barbecue at noon before the dedication of the Soldiers' Tubercular Sanatorium, August 26, giving a second barbecue at 6 p. m. at Platt National Park, followed by a dance in the open air pavilion. Tickets were issued to all ex-service men which were good for a swim in the large natatorium in the Park.

Division Holds Meet

A Department Executive Committee meeting was held August 26 in the Soldiers' Tubercular Sanatorium dedicated at Sulphur. Edgar C. Herrick of Guthrie and E. J. Meacham of Clinton were elected as members to succeed Murray Gibbons, Pucell, and R. D. Henley, Sentinel, respectively, who resigned. The Executive Committee is now composed of the following men: H. B. Fell, Ardmore; Hughes B. Davis, Duncan; J. C. Chaffield, Tulsa; Joe O. Ferguson, Pawnee; Glen E. Lee, Beggs; C. B. Meminger, Atoka; Sam Foster, Drumright; Edgar C. Herrick, Guthrie; Jay W. Jones, El Reno; E. J. Meacham, Clinton; and Neil Richardson, Blackwell.

Bonus Left in Air

Because it is so near time for the state convention at Bartlesville Executive Department at its meeting August 26 took no action regarding the proposed state bonus, in support of which initiative petitions are being circulated over the State by individuals for signatures.

To Secure Colors

The Department Executive Committee at its meeting August 26 decided to secure a Department standard and colors before the National Convention at New Orleans.

Refund Distributed

Department Headquarters has completed distributing over \$4500 refund to Posts as directed by the Executive Committee, because it decided not to start a state publication during the past year.

Books Are Closed

Books closed at Department Headquarters August 12 for the State Convention at Bartlesville September 11-12. Posts have urged to make a final drive for new memberships to send to National Headquarters before September 16 when the books close for the National Convention at New Orleans October 16-20.

AMERICAN TRAMP REACHES BAGDAD WITHOUT SHOES

(By the Associated Press)
BADGAD, Mesopotamia—Hippolyte Martinet, an American, who claims to have tramped barefooted over half the globe, arrived in Bagdad today, shoeless as well as penniless.

With long hair hanging over his neck to protect it from heat and cold, a beard that had not seen the shears for two long years, a kit weighing about 20 pounds flung across his back, and a sign pinned across his breast to proclaim to the world that he is a globe trotter, Mr. Martinet presented himself to King Feisal and told the following story:

"Tired of my profession as a cabinet maker and feeling that a tramp around the world would benefit my health, I set out from my home on April 19, 1920, encumbered by very little of things material.

"Walking on an average of 34 miles a day and resting at several places, I reached New York four months later and managed to get a passage across the Atlantic, reaching Southampton in the middle of September. After a tramp to London I embarked for Antwerp.

"From Antwerp I worked my way through the devastated regions, to Paris. In Paris I tried to sell picture postcards representing myself in the garb of a globetrotter, but the French police mistook me for a beggar and drove me away.

"Quitting Paris I tramped to Havre, and thence to Nice. From Nice I crossed to Switzerland and gradually worked my way down to Brindisi. Leaving the Italian port I crossed to Albania and thence to Greece. Taking a boat I crossed to Egypt, reaching Cairo in December last year.

"After roaming about Egypt I struck towards Palestine and then to Samascus, where I joined a caravan, crossing the desert to Bagdad in 21 days.

Mr. Martinet is about 45 years of age. He plans to go next to Basra, then to Bombay, to Japan, China and San Francisco.

Emir Feisal, who displayed great interest in Mr. Martinet, presented him with a check for \$200.

Gasoline consists of about one-third of the crude oil from which it is distilled.

Let your spare be a used tire to make it less attractive for the auto thief.

WHY THEY PARTED

"I was down with pain in my right side which at times almost crazed me. Most all of the doctors said operation. But what I want to tell you the pain disappeared at the first dose of your medicine and I never see any since. May's Wonderful Remedy has the right thing—gas, sour stomach, and dyspepsia have left, too." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince of money refunded. Gwin and Mays and druggists everywhere.

RADIO

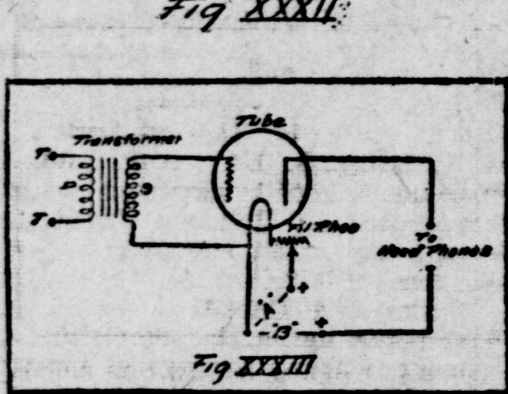

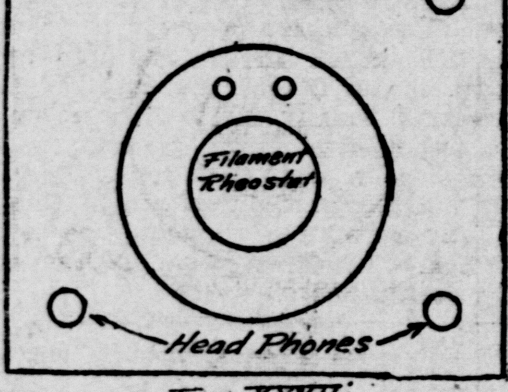

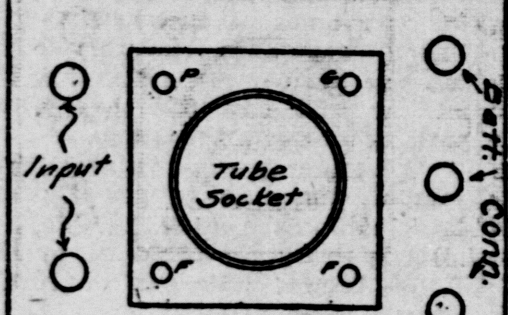

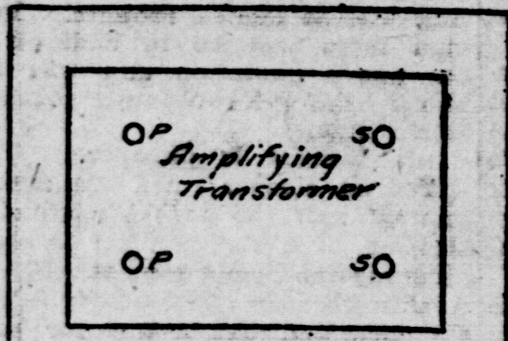

AUDIO FREQUENCY AMPLIFIER UNITS

Construction of Two Is Described, With the Materials That Must Be Purchased.

Theoretically any number of transformer coupled stages of audio frequency amplification can be used. However, due to the amplification of static disturbances, power line induction, tube noises, etc., three stages are about the practical limit. If more than three stages are used the noises become so loud in comparison with the signal that it is difficult to hear the signal.

Since audio frequency amplifying transformers can be purchased at any radio shop and the simplest method of coupling, the construction of two audio frequency amplifier units will be described.

The first unit will be arranged to be used in conjunction with the vacuum tube receiver mounted on the eight-inch square horizontal base board, previously mentioned in this column. The

second unit will be mounted on a vertical panel four inches wide and six inches high to "match up" with the six-by-eight vertical vacuum tube described recently in this column.

The following standard apparatus will have to be purchased at a radio supply store in order to construct an amplifier unit to be used in conjunction with either receiver.

One amplifying transformer, cost about \$5.

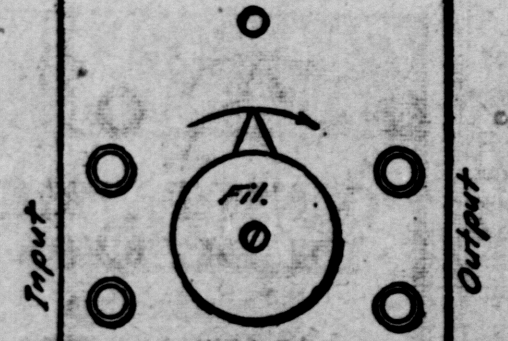

One vacuum tube (for amplifier), cost \$6.50.

One vacuum tube socket, cost \$1.

One filament rheostat, cost about \$1.

Seven binding posts, cost about 70 cents.

The amplifier unit to be used with the eight-inch square horizontal baseboard is mounted on a base three

inches wide and six inches long. The tube filament rheostat is mounted in the front, the amplifying transformer in the back and the tube in the center.

Fig. XXXII shows the relative position of the transformer tube socket and filament rheostat when mounted on the baseboard. A diagram of connections of the amplifier unit is shown in Fig. XXXIII. The input coming from the terminals of the re-

ceiver that were originally connected to the telephone receiver is connected to the terminals of the amplifying transformer. One side of the secondary of the amplifying transformer is connected to the grid, and the other side of the secondary to the filament and common battery lead. The filament rheostat is in series with the positive side of the filament. The plate terminal on the tube socket is connected to one side of the phone, the other side of the phone being connected to the positive side of a 45-volt "B" battery. Use a "hard" tube as an amplifier.

When using the amplifier unit for the first time, tune the receiver with the detector only. To connect the ter-

minals T-T from the amplifier unit in place of the phones in the plate circuit of the amplifier, adjust both the filament rheostats until the signal strength is maximum.

If it is desired to still further amplify the incoming signal two amplifier units can be constructed, the output of each unit being connected to the input of the next, and the phones being placed in the plate circuit of the last amplifier tube.

In constructing the second unit make the panel and the baseboard of the same thickness, kind of wood, and finish as used for the receiver. The panel should be four inches wide and six inches high, the baseboard three inches wide and four inches deep to "match up." Use the same kinds of binding posts and filament rheostat that were used on the receiver.

Fig. XXXIV is a plan view of the amplifier unit, and Fig. XXXV is an elevation of the front view of the panel. The diagram of connections is, of course, the same as for the previously described unit and is shown in Fig. XXXIII.

These amplifier units can be used in conjunction with any radio receiver. The same units connected electrically as shown in Fig. XXXIII can be mounted to suit the builders' own taste.

SEEKS STANDARD APPARATUS

National Radio Chamber of Commerce Is Negotiating With Federal Departments.

The National Radio Chamber of Commerce is negotiating with the various government departments, such as the bureau of standards, Department of Commerce, United States signal corps and United States Navy department, with a view to co-operating with these departments in the standardization of radio apparatus, methods of manufacture, methods of testing, etc. The National Radio Chamber of Commerce intends to work with these departments and assist them in their radio problems.

TIPS FOR FANS

A radio amateur in France has tough luck. He can't send at all and is not permitted to listen in on certain government transmitting stations.

A condemned murderer in a Boston jail is spending his remaining hours in the construction of a radio receiving set so that the inmates may enjoy programs during their hours of unemployment.

Despite all advice to the contrary, people still insist on using dry cells for the filament supply of vacuum tubes. The batteries will hold up for about five minutes and then they will slowly die down, until nothing at all can be heard.

Secretary Wallace has announced completion of plans for broadcasting weather, crop and market news by radiophone from Memphis, Tenn.; Jacksonville, Fla.; Roswell, N. M., and Milwaukee, Wis., thus giving the Department of Agriculture 41 stations throughout the United States from which agricultural news may be disseminated.

A radio aerial well grounded will take all of the joy out of lightning rod salesmanship. Run a No. 4 copper wire down from your lightning arrester, as specified by the new regulations of the underwriters' code compiled in Washington recently, and your home will be amply protected from lightning—if you have gone deep into the earth in making your ground.

GIRDLE OF MANY COLORS IS NEW NOTE FOR FALL

This black crepe de chine frock is simply made on straight lines, but it is given color by the unique girdle which is heavily embroidered in high tones and from which a fringe of rich colors hangs below the skirt. The girdle is worn low over the hips.

SECRET ORDERS TO HELP CHILD SAVING SCHEME

(By the Associated Press)

MONTREAL, P. Q., Aug. 30.—Fraternal and secret societies of North America constitute the "ore potential force that can solve the problem of conserving child life," H. C. Evans of Des Moines, Ia., editor of the Brotherhood of American Yeomen, said today in addressing the National Fraternal Congress.

"These organizations, numbering approximately one-fourth of the people of North America in their memberships, can, by deciding on a definite, national program, eradicate many of the neglects of orphaned and homeless children," he declared, "and thus greatly decrease the number of persons in jails, prisons and other public institutions whose presence there can be directly traced to neglect in childhood."

The Children's Bureau of the la-

bor department was established by the act of April 9, 1912, with powers to "investigate and report," Mr. Evans pointed out, yet in May, 1914 congress created the Bureau of Animal Industry and later gave it powers to suppress contagious diseases in live stock.

"My contention is that as the bureau of animal industry was given authority to save the lives of hogs and cattle, and money was appropriated outright for that purpose, the Children's Bureau should be given authority to save the lives of children," he continued.

"I believe with Herbert Hoover that the proper care of children for one generation would solve most of our perplexing problems."

State and national institutions, reformatories and poor farms will not solve the problem, Mr. Evans declared. He added that institutional-made children are apt to be like the products of a factory; no individuality. Every child is bent to fit the mould.

There should be cottages, not built along streets like a country village, but nestled among trees on hillside, with paths and roads connecting them, Mr. Evans said. Each cottage should contain from eight to ten children of all ages and a foster mother. Between groups of cottages there should be school houses, playgrounds and shops. The children should have their own pigs, chickens and gardens.

SOME GOOD ADVICE

Strengthened by Ada Experiences

Kidney disease is too dangerous to neglect. At first sign of backache, headache, dizziness or urinary disorders, you should give the weak-kneed kidneys prompt attention. Eat little meat, take things easier and use a reliable kidney tonic. There's no other kidney medicine so well recommended as Doan's Kidney pills. Ada people rely on them. Here's one of the many statements from Ada people.

Mrs. Virginia Roberts, 14 E. 2nd St., says: "I have every confidence in Doan's Kidney pills and take them whenever I get attacks of kidney trouble. When I have these spits my back has been aching and I often became so lame that I could hardly do my household work. Then too, if I stooped over I would have dizzy specks pass before my eyes. I could hardly see. I have used Doan's Kidney pills for these attacks and they have always relieved me promptly. I am only too glad to give Doan's my hearty endorsement."

LABOR DAY PICNIC NOT TO BE STAGED

Waner Cancels Plans for Celebration Because of no Amusement.

There will be no labor day celebration here as was advertised, according to an announcement Wednesday by Ralph Waner, manager of the Ada Athletic association, which organization planned the event.

Abandonment of the celebration for September 4 and 5 was decided on after all attempts to obtain attractions, speakers and concessions had failed. The nearness of township and county fairs is given as the reason of lack of interest.

Waner extended an invitation to all who wanted to visit the park on that day to bring basket lunches and enjoy themselves, although the main celebration is definitely abandoned. The swimming pool will be open and all visitors will be welcome.

Music by the military band which was secured for the celebration will not be furnished. The band was released from its contract.

A baseball game at Fair Grounds park will be played. This probably will be the only public affair of any nature here.

SUPREME COURT ORDERS BOZARTH TO SHOW REAS

(By the Associated Press)

OKLAHOMA CITY, Aug. 30.—The state supreme court today granted an alternative writ, ordering District Judge Mark L. Bozarth to show cause why a mandamus petition filed by Governor Robertson to disqualify him as trial judge in the case charging the governor with accepting a bribe, should not be granted. Final hearing on the mandamus action was set for Monday, by which time Judge Bozarth's answer is expected to be filed.

Granting of the alternative writ, according to the governor's attorneys, prohibits Judge Bozarth from proceeding further with the case at Okmulgee, where the governor was indicted by a grand jury in connection with the alleged irregularities in the state banking system. This means that the arraignment of Governor Robertson and 14 others named in the indictments, which was set for August 31, will be delayed until after the final hearing on the mandamus petition next Monday.

Wolf Cubs to Enjoy Day of Outing This Week at Byrd's Mill

A day's outing for every Wolf Cub in the city will be given next Friday, according to an announcement today by Harry W. Miller, who has just completed arrangements for the trip.

Wolf Cubs who are interested are requested to see Mr. Miller at Boy Scout headquarters immediately, as he wishes to know how many will go on that day. A very small cost will be incurred and some necessary articles will be needed, according to present plans. These matters will be disposed of at the time the Cubs call on the scout executive.

Several men and older boys will be along to take care of the youngsters. Grapevine swings, swimming and hiking around Byrd's Mill will be on the day's program.

15 Business Houses at Slick Destroyed by Fire Wednesday

DRUMRIGHT, OKLA., Aug. 30.—Fifteen business houses and four residences at Slick, ten miles southeast of here, were destroyed by fire early this morning, when a blaze, starting in a rooming house, got beyond control and spread rapidly to adjoining buildings. For a time the entire business section of the town was threatened. Property loss is estimated at about \$150,000. No estimate of the amount of insurance carried was available. The fire is under control.

Fire companies from Sapulpa and Bristow responded to the calls.

HARDING THINKS BONUS IS OBJECTIONABLE NOW

WASHINGTON, Aug. 30.—White house callers who discussed the bonus measure with President Harding today came away with the impression that the executive regarded addition of the McNary reclamation and the Simmons foreign debt amendments adopted yesterday in the senate as making the measure more objectionable than it was in its original form.

HOME FOR SALE

On account of leaving Ada I am offering my home for sale at a sacrifice. Small cash payment down and terms to suit. This place must be seen to appreciate the great bargain that we are offering. Seven rooms, basement, hardwood floors, furnace and built-in furniture. Also good garage.

Pimples Keep Young Men Down!

They Make Women, Too, a Puzzle How S. S. S. Stops Skin Eruptions Positively.

Pimples and skin eruptions have a price—you pay for every pustule, black-head and pimple on your face. Pimples produce prejudice and prevent prosperity. Your heart may be gold,

S. S. S. Will Rid You of the Crushing Pimple-Calamity.

but who wants to kiss eruptions? Pimples don't look like the owners of anything. Pimple women, too, are puzzles, with no prospects and no power. Young men and women, here's the positive way out. Physics and purgatives will fail. What you need is a scientific blood-cleanser. S. S. S. is one of the most powerful destroyers of blood impurities. You can prove this in a short time. S. S. S. has been passed on by a jury of millions of people just like yourself. It is considered one of the most powerful vegetable blood-purifiers and flesh-builders in existence. That's why you hear of so many underweight people putting on lost flesh in a hurry, why you hear of so many rheumatics being freed from this scourge, with S. S. S. Start today with S. S. S. and see your face clear and your skin get ruddier, your flesh firmer. It will give you a boost in your career. S. S. S. is sold at all drug stores, in two sizes. The larger size is the more economical.

"T'WAS HIS HEAD OR MINE," SAYS MAN DESCRIBING MURDER OF HIS PARTNER

John K. Hendricks, former Tennessee moonshiner, and Deputy Sheriff Oliver Sexton, who arrested him.

Once more it was the old, old story of two men and a woman, and now Thomas Kester is dead and John D. Hendricks faces death on the gallows. Hendricks claims Kester was not married to the girl and in commenting on the murder says, "It was his head or mine." Kester was beaten to death with a pick handle in the little mountain cabin where the three lived and the men made moonshine.

FATE OF NEGRO REMAINS AS A MYSTERY TODAY

(By the Associated Press)
SHREVEPORT, La., Aug. 30.—The fate of Tom Rivers, negro, alleged confessed assailant of a white woman in Shreveport, who was seized by a band of about 25 men last night while being transferred by officers to the parish jail at Benton, La., was undetermined today, several searching parties reporting a fruitless search. Authorities said they felt positive the negro had been lynched.

TULSA MAN DIES FROM GUN WOUNDS

Motorist Killed Tuesday in Exchange of Shots at Moundville.

(By the Associated Press)
MOUNDVILLE, Aug. 30.—M. M. Mowlin of Tulsa, Okla., an official of the Bell Telephone company, was shot to death near here last night. With a party of friends, he was motoring from Tulsa to Moberly, Mo. Carl Delbono, one of the proprietors of a small coal mine, was arrested and is held at Nevada.

Officers are searching for Sam and Joe Delbono, brothers of Carl, and interested in the mine. Carl Delbono told officers that he and his brothers met Mowlin on a narrow road and that Mowlin ran into a ditch. He began shooting at the Delbono car, he asserted, and the Delbonos went back and returned the fire.

Mowlin was a son of Claude Mowlin of St. Louis, general counsel for the Southwestern Bell Telephone company. Mowlin's mother, now Mrs. J. W. Holman of Tulsa, was a member of the party.

STRANDED MOTOR CAR IS FOUND BULLET RIDDLED
PITTSBURG, Kan., Aug. 30.—A motor car belonging to the Delbono brothers, formerly of this county and now of Moundville, Mo., was found at Mulberry this morning. It had several bullet holes in the body.

CANADIAN FARMS SHOW A GROWING POLITICAL ZEAL

(By the Associated Press)
WINNIPEG, MAN., Aug. 30.—The recent election of John Bracken as premier of Manitoba, lends greater emphasis to the rise of farmers to political power in Canada, in the opinion of leaders of the farmer movement. Premier Bracken unanimously was selected to head the provincial government following the triumph of the farmer's party in Manitoba, these leaders point out. The new premier is an expert agriculturist and never has taken an active part in politics or attended a session of parliament.

Mr. Bracken is one of a company of distinguished farmers who in the last few years have risen to political prominence in Canada. Premier Drury of Ontario, Premier Greenfield of Alberta and Premier Oliver of British Columbia all are farmers. In the last Dominion election, 66 farmers were elected out of a total membership of 235 in the federal House of Commons.

Mr. Bracken, 39, is the youngest premier ever elected in Canada, with the exception of the late Sir Richard McBride of British Columbia. He was born on a farm in Leeds county, Ontario and was warden of his county while still in his teens. He graduated from the Ontario Agricultural College at Guelph, taking three scholarships and one efficiency medal.

He was a member of the first livestock judging teams which won the championship at the International Livestock show in Chicago. Having supplemented his college course with post graduate work in Universities in the United States, he came to Manitoba as representative of the Dominion Seed Branch and on the formation of the province of Saskatchewan in 1905, was made superintendent of institutions and fairs and livestock commissioner.

When the University of Saskatchewan was opened at Saskatoon, he was made professor of field husbandry and won international fame as an authority on dry farming. Mr. Bracken went from the University of Saskatchewan to the University of Manitoba as president in 1920. From this position he was elected premier.

Massachusetts has reduced motor accident injuries 45 per cent in the last year.

The Women of Taste

will be surely pleased with the becoming styles we have here assembled for her inspection.

The charm of new style features lies in their being carried out by master designers.

In attractive models of refined cleverness and harmonious use of line, color and trimming—

Such as we are showing.

You are invited to inspect them and make your early selection.

Coats, Suits, Dresses, Accessories

Farmers' Column

By Byron Norrell

J. P. Owens of Weatherford, Texas, had a demonstration of his boll weevil machine in the Covington field near the fair ground Wednesday morning. Several from Ada watched the test and all pronounced it the best of several seen this season. It caught an immense number of live weevils and in a field where it was hard to find one by hunting, as well as a large quantity of damaged bolls and squares.

The stalks are shaken by revolving paddles over a metal trough between the rows and the contents gathered up and burned as the trough is filled.

A successful beekeeper of Pontotoc county suggests that all who are in the bee business should hold a meeting and organize a marketing association. It is said that there is an abundance of honey in the county this year and not much market, although honey is being shipped in from Texas and other places. On the other hand it is said that some beekeepers occasionally rob the hives before the honey is fully matured. The honey spoils if not used at once and this causes a loss. An association would be able to guarantee a good product and this would help the sale and price of the honey.

Mr. and Mrs. L. E. Hutchinson, who live two miles northwest of Oakman, have ten colonies of bees which have made about 1,000 pounds of honey this season.

Culling Poultry.

By Harry Embleton
Professor of Poultry Husbandry, A. and M. College.

In as much as the indications used to cull poultry are caused by heavy egg laying it necessarily followed that the culling should be done directly after the heaviest laying period of the year. This would be in August or September. At this time your good layers should have the following indications:

Head: The comb and ear lobes of your heavy layers should be large. The color should be out of beak and the edges of the eyelids.

Body: The body should be long and deep in the rear for the breed. Between the pelvis there should be the length of three fingers width. The pelvis should be straight, pliable and have no surplus fat upon them. The distance from the pelvic bones to the edge of the keel bone should be at least four fingers.

In feeling of the condition of the body between the pelvis and the keel bone it should be soft and pliable with no accumulation of surplus fat.

The color should be out of the legs and also the legs should have a shriveled up appearance rather than to be plump and fat.

The vent should be large and moist.

In small breeds the body should be large for the breed and in the large breeds the body will be smaller for the breed.

Women Stand Solidly Behind Volstead Law W. C. T. U. Leaders Say

(By the Associated Press)
CHICAGO, Aug. 30.—American women today stand solidly behind enforcement of the Volstead law as ever, declare officials of the Women's Christian Temperance Union replying to the call of Major General Daniel Appleton, vice president of the New York Association against the Prohibition Amendment, for 1,000 women recruits for an anti-Volstead army.

In organizing the Molly Pitcher club in New York, as part of the organization he represents, General Appleton declared the Volstead law "is a falsehood and has no place in our land," adding that "every

hinking man and woman demands its repeal." The W. C. T. U. cites resolutions passed by the Young Women's Christian Association, League of Women Voters, National Business and Professional Women's Association,

tion, National Women's Trades Union, Mothers' Congress, Parent-Teachers' Association, and General Federation of Women's Clubs, each favoring enforcement of the law at national meetings held during the year.

In one day in May, 1944 applications were made for automobile licenses in New York City.

Compression pressure of the average automobile engine is from 60 to 70 pounds to the square inch.

SHINOLA

America's Home Shoe Polish

and SHINOLA HOME SET

MAKES SHINING YOUR OWN SHOES A MATTER OF A FEW SECONDS

The Genuine Bristle Dauber cleans the shoe, gets into all crevices and applies polish quickly and easily.

The large Lamb's Wool Polisher brings a brilliant shine with a few strokes.
